

**MOD : GTP-3/N1**

**Production code : 19104227**

**05/2024**

| MODELO / MODEL                    |         | 031 R290    |
|-----------------------------------|---------|-------------|
| Dimensiones Exteriores            | mm      | 590x700x520 |
| External Dimensions               |         |             |
| Dimensiones Interiores            | mm      | 330x612x270 |
| Internal Dimensions               |         |             |
| Tipo Abatidor                     |         | Mixto       |
| Type Blast Chiller                |         |             |
| Capacidad GN                      | nº      | 3 GN1/1     |
| Capacity GN                       |         |             |
| Capacidad EN                      | nº      | -           |
| Capacity EN                       |         |             |
| Separacion entre bandejas         | mm      | 80          |
| Interstep trays                   |         |             |
| Espesor aislamiento               | mm      | 35          |
| Thickness                         |         |             |
| Medidas hueco puerta              | mm      | 330x400     |
| door opening measures             |         |             |
| Refrigerante                      | Gas     | R290        |
| Refrigerant                       |         |             |
| Ciclo refrigeración               | 90' °C  | +90/+3      |
| Chilling cycle                    |         |             |
| Ciclo Congelación                 | 240' °C | +90/-18     |
| Freezing cycle                    |         |             |
| Capacidad Abatimiento (EN17032)   | 120' Kg | 12          |
| Chilling capacity                 |         |             |
| Capacidad Congelación (EN17032)   | 270' Kg | 6           |
| Freezing capacity                 |         |             |
| Grupo frigorífico                 | °C      | Incorporado |
| Refrigeration Unit                |         |             |
| Alimentación electrica            | V/~ /Hz | 230/1/50    |
| Electric Power supply             |         |             |
| Intensidad Maxima                 | A       | 2.5         |
| Max. Absorbed current             |         |             |
| Potencia Frigorifica (T.ev: -20°) | W       | 565         |
| Capacity refrigeration            |         |             |
| Forma entrada bandeja             | mm      | 325         |
| Input tray                        |         |             |
| Volumen bruto exterior            | m³      | 0,45        |
| Total Volume external             |         |             |
| Volumen interior neto             | m³      | 0,055       |
| Net Volume internal               |         |             |
| Peso                              | Kg      | 50          |
| Weigh                             |         |             |

Capacidad según EN17032 (Refr, +65 °C à +10 °C en 120'; Cong +65 °C à -18 °C en 270')
