ENGLISH TRANSLATION

The **TECHNO INDUSTRIAL BUREAU RAMÓN RIBAS RIBOT** located in Barcelona, Sant Antoni M^a Claret Street, 53 entl. 2^a, has realised the **Technical study for certification** of the citrus fruit squeezers mark **CUNILL SUCS** models: **ACID-One**, manufactured by the company CUNILL SUCS, S.L. located at Sils-Mallorquines (Girona), Crt. Sta. Coloma s/n, according to the **Guidelines of the Council of the European Communities**.

89/392/CEE GUIDELINE OF THE COUNCIL of June 14 1989 related to the approaching of the legislation of the member States on machines.

73/23/CEE GUIDELINE OF THE COUNCIL of 19 February 1973 related to the approaching of the legislation of the member States on electrical material designated to be used with determinate tension limits.

93/68/CEE GUIDELINE OF THE COUNCIL of 22 July 1993 through which the guidelines 89/392/CEE (machines) and 73/23/CEE (electrical material designated to be used with determinate tension limits) are modified.

Establishing the modification indicated in the above-mentioned **citrus fruit squeezers** to comply with the essential security guidelines dictated on the former Guidelines and according with the harmonised European Guidelines: **EN 292-1, EN 292-2 and EN 60204-1**.

Barcelona, 25th July 1995
